Step 1 : Access through Depositories CDSL/NSDL e-Voting system in case of individual shareholders holding shares in demat mode.

Step 2 : Access through CDSL e-Voting system in case of shareholders holding shares in physical mode and non-individual shareholders in demat mode.

- (i) The voting period begins on 22nd September, 2025 at 9.00 A.M and ends on 24th September, 2025 at 5.00 P.M. During this period shareholders of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off date 19th September, 2025 may cast their vote electronically. The e-voting module shall be disabled by CDSL for voting thereafter.
- (ii) Shareholders who have already voted prior to the meeting date would not be entitled to vote at the meeting venue.
- (iii) Pursuant to SEBI Circular No. **SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 09.12.2020**, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to **all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants**. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

Step 1 : Access through Depositories CDSL/NSDL e-Voting system in case of individual shareholders holding shares in demat mode.

- (iv) In terms of **SEBI circular no. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated December 9, 2020** on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants. Shareholders are advised to update their mobile number and email Id in their demat accounts in order to access e-Voting facility.

**EXPLANATORY STATEMENT PURSUANT TO SECTION 102 OF THE COMPANIES ACT, 2013**

As required by Section 102 of the Companies Act, 2013 (the "Act"), and the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 (the "SEBI Listing Regulations"), the following Explanatory Statement sets out all material facts relating to the businesses mentioned under Items No. 4 to 8 of the accompanying Notice dated August 14, 2025:

Item No.4

On the recommendation of Audit Committee, the Board of Directors at the meeting held on 30.05.2025 has approved the appointment of Sri Thota SSV Santhosh Kumar as Cost Auditor to conduct the audit of the cost records of the Company for financial year ending March 31, 2026.

In accordance with the provisions of Section 148 of Companies Act, 2013 read with the Companies (Audit and Auditors) Rules, 2014, the remuneration payable to the Cost auditors had to be ratified by the shareholders of the Company.

Accordingly, consent of the members is sought for passing an Ordinary Resolution as set out at Item No. 4 of the Notice for ratification of the remuneration payable to the Cost Auditors for the financial year ending March 31, 2026.

None of the directors / Key Managerial Personnel of the Company / their relatives are, in any way, concerned or interested, financially or otherwise, in the resolution set out at Item No.4 of the Notice.

The Board commends the Ordinary Resolution set out at Item No. 4 of the Notice for approval by the shareholders.

Item No.5

In terms of section 149 and other applicable provisions of the Companies Act, 2013, Smt R Triveni (DIN: 09045405) was appointed as an additional director in the capacity of independent director in the Board meeting held on 13th February, 2021 and approved by the members of the Company at 16th Annual General Meeting held on September 30, 2021 for a period of five years.

In terms of provisions of Section 178 of the Companies Act, 2013, the Nomination & Remuneration Committee of the Company shall recommend the appointment / reappointment of a Director to the Board of the Directors.

As per provisions of Section 149(10) of the Companies Act, 2013, an Independent Director shall hold office for a term of up to five consecutive years on the Board of a Company, but shall be eligible for re-appointment for another term of up to five consecutive years on passing a Special Resolution by shareholders.

Based on the recommendation of the Nomination & Remuneration Committee and the Board of Directors in their respective meetings held on 14th August, 2025, proposal for reappointment of Smt R Triveni (DIN: 09045405) as an Independent

Director of the Company for a period of five consecutive years for a second term commencing from 13th February, 2026 and up to 12th February, 2031 placed for members approval by way of special Resolution. She is not liable to retire by rotation.

The Company had received intimation in Form DIR-8 from Smt R Triveni (DIN: 09045405) that she is not disqualified from being re-appointed as an Independent Director in terms of Section 164 of the Act, declaration that she meets with the criteria of independence as prescribed under subsection (6) of Section 149 of the Companies Act, 2013 and Regulation 16(1)(b) of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015. She has also given her consent to continue to act as Director of the Company, if so appointed by the members. She also confirmed that she is not debarred from holding the office of the Director by virtue of any SEBI Order or any such authority. She also confirmed about compliance with rule 6(1) and 6(2) of the Companies (Appointment and Qualifications of Directors) Rules, 2014 with respect to her registration with the data bank of Independent Directors maintained by the Indian Institute of Corporate affairs (IICA).

In the opinion of the Board, Smt R Triveni (DIN: 09045405) fulfils the conditions for re-appointment as an Independent Director specified under section 149(6) of the Companies Act, 2013 and Regulation 16(1)(b) of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 .

The Board considers that her continued association would be of immense benefit to the Company and it is desirable to continue to avail services of Smt R Triveni (DIN: 09045405) as an Independent Director and she possess the identified core skills, expertise and competencies fundamental for effective functioning in her role.

Pursuant to Section 160(1) of the Companies Act, 2013, the Company had received a notice from a member proposing her candidature for the office of the Director.

Accordingly, the Board recommends passing of Special Resolution in relation to re-appointment of Smt R Triveni (DIN: 09045405) as an Independent Director for another term of five consecutive years for the approval by shareholders of the Company.

Except Smt R Triveni (DIN: 09045405) , being an appointee and her relatives , none of the Directors and Key Managerial Personnel of the Company or their relatives are concerned or interested, financially or otherwise, in the resolution set out at item No.5 of the accompanying notice of the AGM. Smt R Triveni (DIN: 09045405) is not related to any Directors of the Company.

The Board, therefore, recommends the approval of the Special Resolution set out at Item no. 5 of the Notice .

**ITEM NO .6**

Based on the recommendation of Nomination and Remuneration Committee, the Board of Directors of the Company ("**Board**") at its meeting held on 14th August, 2025 had appointed Sri Kamma Edlapalli Krishna (DIN: 11239076) as an Additional Director in the capacity of Non-Executive Independent Director of the Company for a term of Five (5) consecutive years effective from 14th August, 2025 not liable to retire by rotation, subject to approval of the shareholders of the Company.

The Company has received from Sri Kamma Edlapalli Krishna (i) consent in writing to act as Director in Form DIR-2 pursuant to Rule 8 of Companies (Appointment & Qualification of Directors) Rules, 2014, (ii) intimation in Form DIR-8 in terms of Companies (Appointment & Qualification of Directors) Rules, 2014, to the effect that he is not disqualified under Section 164(2) of the Act, (iii) confirmation that he meets the criteria for independence pursuant to regulation 16(1)(b) of SEBI (LODR) Regulations, 2015.

He also confirmed that he is not debarred from holding the office of the Director by virtue of any SEBI Order or any such authority. He also confirmed about compliance with rule 6(1) and 6(2) of the Companies (Appointment and Qualifications of Directors) Rules, 2014 with respect to his registration with the data bank of Independent Directors maintained by the Indian Institute of Corporate affairs (IICA).

The Company has also received a Notice under Section 160 of the Act from a member proposing candidature of Sri Kamma Edlapalli Krishna for the office of Director of the Company.

Disclosures as required under Regulation 36(3) of SEBI (LODR) Regulations, 2015 and Secretarial Standard-2 on General Meetings issued by Institute of Company Secretaries of India are annexed to this Notice.

None of the Directors and key Managerial Personnel or their relatives are, in any way, concerned or interested, financially or otherwise in the said resolution, except Sri Kamma Edlapalli Krishna, Non-Executive Independent Director.

The Board recommends the Special resolution as set out in item No. 6 of this Notice for your approval.

**ANNEXURE-C TO DIRECTORS REPORT****Conservation of energy, technology absorption, foreign exchange earnings and outgo :****I Conservation of Energy :**

- (1) A new 10" diameter steam pipeline was arranged for Pharma Plant (Unit-IV) in place of existing 6" diameter pipeline to improve steam pressure, thereby reducing the batch time of Sodium Methoxide Dryers.
- (2) In order to avoid steam venting in Sulphuric Acid Plant No.1 (SAP-1) from the Turbine exhaust during stoppage of any steam user Plant, an " Excess steam utilization Line" was arranged from Sulphuric Acid Plant-1 Turbine exhaust to Pharma Plant new steam pipeline.
- (3) It is proposed to install variable Frequency Drives for Sulphuric Acid Plant-2 & Sulphuric Acid Plant-3 Acid circulation pumps in order to conserve energy.
- (4) At present Sulphuric Acid Plant-2 & Sulphuric Acid Plant-3 Turbines are working at partial load in order to meet the steam requirement of user Plants. To improve the power generation even by meeting the steam demand, it is proposed to modify the Turbines with the design that shall be given by M/s. MAN turbines. After getting the complete proposal from them, it will be revived and implemented.

II Special Areas in which R & D was carried out by Company :

- (1) In order to reduce turbidity in Sulphuric Acid Product, a Micro Filter is being worked out with 0.5 micron aperture candles. For this purpose a trial filter shall be used. Probably, this attempt would be the first of its kind in Indian H₂SO₄ Industry.

III BENEFITS DERIVED OUT OF R & D :

An innovative method is developed in our Laboratory to recover maximum Calcium Hypo Chlorite present in its byproduct stream (mother water). Later on Pilot trials are also proven successful. Then it is commercialized in the Plant scale in one Stream. With this innovation, byproduct stream is recycled and reused in the Plant, there by conserving the raw material to the considerable extent. It not only reduces the cost of production and also reduces the dependency on market for the sales of byproduct. On the other hand, it has positive impact on the environment in the form of raw material conservation.

IV. FUTURE PLANS IN R & D

- 1) Spirulina, an algal product, shall be produced shortly in commercial scale.
- 2) Recovery of Calcium Hypo Chlorite from mother water shall be extended to other 6 Streams by making suitably designed full scale Recovery Plant.

V. OTHER IMPROVEMENTS

- (1) In Sulphuric Acid Plant No.2 gas duct lines shall be modified to reduce plant pressure drop which will result in reduced power consumption/improved Acid production.
- (2) In Sulphuric Acid Plant 1/2 Common Melter section the steel structure shall be changed from existing ISMB to Wide parallel Beam (WPB) for improving structural strength and thereby human safety.
- (3) We have installed ND20 Relay in order to control Maximum Demand, by this scheme, we can avoid penalty charges, as we have taken approval for 5000 KVA CMD from APSPDCL.
- (4) We have made ready one emergency panel with four incoming sources from Sulphuric Acid Plant-2, Sulphuric Acid Plant-3, 10 MW Power Plant and DG sets and two outgoing to provide power supply in case of emergency.
- (5) We have shifted Sulphuric Acid Plant-2 (SAP-2) related Sulphur Pumps from SAP-2 MCC Panel to SAP-2 VFD Panel room in order to avoid dust chemical fumes entry and to avoid failure of switch gear.
- (6) Safety interlock introduced in SAP-2 & 3 when APT pressure exceeds set point, ON/ OFF valve installed to open and release pressure to atmosphere.
- (7) Export steam flow measurement implemented for Sulphuric Acid Plant -2 & Sulphuric Acid Plant -3 for steam accounting purpose.
- (8) Measurement system for Milk of lime flow to Aquafit-1 & Aquafit-2 for better control of Raw material is implemented.

VI. PROPOSED IMPROVEMENT POINTS

- (1) Providing Pressure drop measurement for Hot Gas Filter with Alarm in DCS for Sulphuric Acid Plant -1, 2 & 3.
- (2) Implementation of measuring system with Higher Resolution for Hydrogen Purity in Hydrogen Bottling Plant.
- (3) Implementation of measuring system for Oxygen Traces in Hydrogen, in Hydrogen Bottling Plant.

Foreign Exchange Earnings and Outgo:

- a) **Activities relating to exports, initiatives taken to increase Exports, development of new export market for products and services and export plans:**

The Company has continued to maintain focus and avail of export opportunities based on economic consideration.

- b) Total Foreign Exchange used/earned (Rs. in lakhs)

i. Foreign Exchanged earned	27,757.17

**INDEPENDENT AUDITOR'S REPORT****TO THE MEMBERS OF SREE RAYALASEEMA HI-STRENGTH HYPO LIMITED****Report on the Audit of the Standalone financial statements****Opinion**

We have audited the accompanying standalone financial statements of Sree Rayalaseema Hi-Strength Hypo Limited ('the Company'), which comprise the Standalone Balance Sheet as at 31 March 2025, the Standalone Statement of Profit and Loss (including Other Comprehensive Income), the Standalone Statement of Changes in Equity and the Standalone Statement of Cash Flows for the year then ended, and notes forming part of standalone financial statements, including a summary of material accounting policies and other explanatory information (herein after referred to as 'the Standalone Financial Statements').

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone financial statements give the information required by the Companies Act, 2013 ('the Act') in the manner so required and give a true and fair view in conformity with accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2025 and total profit and other comprehensive income (comprising profit and other comprehensive income), statement of changes in equity and its cash flows for the year ended.

Basis for opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone financial statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Standalone financial statements.

Key audit matters

Key audit matters ('KAM') are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the standalone financial statements section of our report, including in relation to these matters.

Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the standalone financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying standalone financial statements.

Key audit matters:

Key Audit Matter	Auditor's Response
Revenue Recognition The application of the new revenue accounting standard involves certain key judgements relating to identification of distinct performance obligations, determination of transaction price of the identified performance obligations, the appropriateness of the basis used to measure revenue recognized over a period. Revenue from sale of goods is recognized when control of the products being sold is transferred to our customer and when there are no longer any unfulfilled obligations. The application of the new revenue accounting standard involves certain significant judgements and estimates made by the management including identification of distinct performance obligations, determination of transaction price of the identified performance obligations, determination of transaction price, the appropriateness of the basis used to measure revenue recognized over a period. Revenue is only recognised to the extent that it is highly probable a significant reversal will not occur. Accumulated expenses are used to estimate provisions of discounts, rebates. Refer note 2.2(a) of the financial statements.	Principal Audit Procedures We reviewed the Company's implementation of Ind AS 115, including recognition of the effect on opening equity and changes to procedures, accounting guidelines, disclosures and systems to support correct revenue recognition. We reviewed and discussed the accounting policy including the key accounting estimates and judgements made by management. We tested the relevant internal controls used to ensure the completeness, accuracy and timing of revenue recognised. We read a sample of contracts to assess whether the method for recognition of revenue was relevant and consistent with Ind AS 115 and had been applied consistently. We focused on contract classification, allocation of income and cost to the individual performance obligations and timing of transfer of control. We evaluated the significant judgements and estimates made by management in applying accounting policy to sample of contracts and we obtained evidence to support them, including contractual agreements, delivery records. We also considered the historical outcomes of estimates used in prior periods. We applied Audit Techniques to establish, whether any revenue has been recognized where no corresponding accounts receivable or cash has been recorded in the general ledger.

Other Information

The Company's management and Board of Directors are responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures there to, Business Responsibility and sustainable Report, Corporate Governance and Shareholder's information, but does not include the standalone financial statements and auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Standalone Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements, or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

When we read the additional information, as mentioned above, that would be included in the Integrated Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take appropriate actions as applicable under the relevant laws and regulations.

Responsibility of Management and those charged with Governance for the Standalone financial statements

The Company's management and Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with accounting principle generally accepted in India, including Indian Accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management and Board of Directors are responsible for assessing the Company's ability to continue as a

going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management and Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors of the Company are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of the Standalone financial statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(l) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to standalone financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management and Board of Directors
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions

are based on the audit evidence obtained up to the date of our auditor's Report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matter. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

- 1) As required by the Companies (Auditor's Report) Order, 2020 ('the Order') issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we give in '**Annexure-A**' a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

 - ii. The Company did not have any long-term contract including derivative contracts for which there were any material foreseeable losses.
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company during the year ended 31 March 2025.
 - iv. a. The Management has represented that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary

- shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
- b. The Management has represented, that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Company from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
- c. Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.
- v. The dividend declared in previous year and paid during the year by the company is in compliance with section 123 of the Act, to the extent it applies to payment of dividend.
- vi. Based on the examination which included test checks and accordance with requirements of the implementation guide on reporting on audit trail under Rule 11(g) of companies (Audit and Auditors) Rules 2014, we report that the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with and the audit trail has been preserved by the Company as per the statutory requirements for record retention.

4.	Property plant and Equipment	Land	42,54,639	Amalgamated company	No	Date of Amalgamation	This was received in scheme of Amalgamation. Change of title is under process

- d) According to the information and explanation given to us and on the basis of our examination of the records of the Company, the Company has not revalued any of its Property, Plant and Equipment (including right-of-use assets) and intangible assets during the year.
- e) According to the information and explanation given to us and on the basis of our examination of the records of the Company, there are no proceedings have been initiated during the year or are pending against the Company as at 31 March 2025 for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (as amended in 2016) and rules made thereunder.
- ii) a) The inventories have been physically verified by the management during the year. In our opinion, the frequency of such verification is reasonable. The Company has maintained proper records of inventory. There was no material discrepancies noticed on verification between the physical stock

and the book records and the minor variations have been properly dealt with books of accounts and such discrepancy does not exceed 10% or more in each class of inventory.

- b) At any point of time during the year, the Company has not availed working capital limits in excess of Rs. 5 crores, in aggregate, from banks on the basis of security of current assets. Accordingly reporting of discrepancy in submission of stock statements under clause 3 ii)b) of the Order is not applicable for the period under review.
- iii) a) The Company has, during the year, made investments in a partly owned subsidiary and the subsidiary company has repaid the existing unsecured loan. The aggregate amount of loans and advances in the nature of loans granted during the year and balances outstanding at the balance sheet date with respect to loan to others are as per the details given below:

Particulars	Loans ₹ in Lakhs
Aggregate amount granted during the year.	
-Subsidiary company	-
-Others (net)	77.36
Balance outstanding as at balance sheet date in respect of above cases:	
-Subsidiary company	-
-Others	2,522.40

The Company has not provided any corporate guarantee or offered security during the year.

The above amounts are included respectively in note 5 (A) & 12 to the standalone financial statements.

- b) In our opinion, the investments made and the terms and conditions of the grant of loans, during the year are, prima facie, not prejudicial to the Company's interest.
- c) In respect of aforesaid loans, the terms and conditions under which loans were granted are not prejudicial to the Company's interest, based on the information and explanation provided by the Company. In respect of loan granted by the Company to some individuals and private companies, repayment is on demand basis and payment of interest has been stipulated on annual basis and receipts of interest have been generally regular as per stipulation.
- d) In respect of loans granted by the Company, there is no overdue amount remaining outstanding as at the balance sheet date for more than 90 days.

- e) No loan granted by the Company which has fallen due during the year, has been renewed or extended or fresh loans granted to settle the over dues of existing loans given to the same parties.
- f) The details of loan granted, either repayable on demand or without specifying any term of repayment, are given below:

The above loan is included in note 12 to the standalone financial statements.

- iv) In our opinion and according to the information and explanation given to us, the Company has complied with the provisions of Sections 185 and 186 of the Act, in respect of loans granted, investments made as applicable. The Company has not provided any guarantees or securities.
- v) The Company has not accepted any deposits or amounts during the year as per provisions of Section 73 to 76 of the Act and relevant Rules framed thereunder. Accordingly, the clause 3 (v) of the Order are not applicable to the Company for the year.
- vi) Pursuant to the rules made by the Central Government of India, the Company is required to maintain cost records as specified under section 148(1) of the Act in respect of its products. We have broadly reviewed the same and are of the opinion that, prima facie, the prescribed accounts and records have been made and maintained. We have, however, not made a detailed examination of the records with a view to determine whether they are accurate or complete.
- vii) In respect of statutory dues:
- a) According to the information and explanation given to us by the Company and records of the Company examined by us, the Company has generally been regular in depositing undisputed statutory dues, including Goods and Services tax, Provident Fund, Employees' State Insurance, Income tax, Sales Tax, Service Tax, duty of Custom, duty of Excise, Value Added Tax, Cess and other material statutory dues applicable to it with the appropriate authorities.

There were no undisputed amounts payable in respect of Goods and Service tax, Provident Fund, Employees' State Insurance, Income Tax, Sales Tax, Service Tax, duty of Custom, duty of Excise, Value Added Tax,

Cess and other material statutory dues in arrears as at 31 March 2025 for a period of more than six months from the date they became payable.

- b) Details of statutory dues referred to in sub-clause (a) above which have not been deposited as on 31 March 2025 on account of disputes are given below:

- viii) There were no transactions relating to previously unrecorded income that have been surrendered or disclosed as income during the year in the tax assessment under the Income Tax Act, 1961(43 of 1961).
- ix) a) According to the information and explanation given to us by the Company and records of the Company examined by us, the Company has repaid all loans and no loans are outstanding as on date of balance sheet. Accordingly, reporting of defaults in repayment of loans or payment of interest is Clause 3(ix) of the order is not applicable.
- b) The Company has not been declared a wilful defaulter by any bank or financial institution or government or any government authority.
- c) The Company has no loans outstanding as on the date of balance sheet and accordingly reporting on end use as per clause 3 (ix) (c) of the Order is not applicable to the company for the period under review.
- d) According to the information and explanation given to us by the Company and based on the procedures performed by us and on overall examination of Standalone financial statements of the Company, we report that no funds raised on short-term basis have been used for long-term purpose of the Company.
- e) According to the information and explanation given to us by the Company and on overall examination of Standalone financial statements of the Company, the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries, associate or Joint ventures.

- f) According to the information and explanation given to us by the Company and based on the procedures performed by us, we report that the Company has not raised loans during the year on the pledge of securities held in its subsidiaries, joint ventures or associate companies.
- x) a) The Company has not raised any money by way of initial public offer or further public offer (including debt instruments) during the year and hence reporting under clause 3(x)(a) of the Order is not applicable.
b) The Company has not made any preferential allotment or private placement of shares or convertible debentures of any kind during the year and hence reporting under clause 3(x)(b) of the Order is not applicable.
- xi) a) During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India, and according to the information and explanations given to us, we have neither come across any instance of material fraud by the Company or on the Company, noticed or reported during the year, nor have been informed of any such case by the Management.
b) During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India, and according to the information and explanations given to us, a report under Section 143(12) of the Act, in Form ADT-4, as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 was not required to be filed with the Central Government. Accordingly, the reporting under clause 3(xi)(b) of the Order is not applicable to the Company.
c) During the course of our examination of the books and records of the Company carried out in accordance with the generally accepted auditing practices in India, and according to the information and explanations given to us. The Company has not received any whistle blower complaints during the year. Accordingly, Clause 3(xi)(c) of the Order is not applicable.
- xii) The Company is not a Nidhi Company as prescribed under Section 406 of the Act and accordingly, clause 3(xii) of the Order is not applicable.
- xiii) In our opinion, and according to the information given to us, the Company is in compliance with Section 177 and 188 of the Companies Act, 2013 with respect to applicable transactions with the related parties and the details of related party transactions have been disclosed in the standalone financial statements as required by the applicable Ind AS.
- xiv) a) In our opinion and according to the information given to us, the Company has an adequate internal audit system commensurate with the size and the nature of its business.

- b) We have considered the internal audit report for the year under audit, issued to the Company during the year and till date, in determining the nature, timing and extent of our audit procedure.
- xv) In our opinion during the year the Company has not entered into any non-cash transactions with its Directors or persons connected with its directors and hence provisions of section 192 of the Companies Act, 2013 are not applicable to the Company.
- xvi) a) In our opinion, the Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934. Hence, reporting under clause 3(xvi)(a) & (b) of the Order is not applicable.

Notes to financial statements for the year ended 31st, March 2025

Note 1: General Information

Sree Rayalaseema Hi – Strength Hypo Limited (“The Company”) incorporated on 28th March, 2005, it is the leading producer of Calcium Hypo Chloride, Stable Bleaching Powder, Sulphuric Acid, other chemicals and Power generation.

The Company is a public limited company domiciled in India and incorporated under the provisions of the Companies Act, 1956. The address of its corporate office is at 216, Bhagyanagar, KJ Complex, Kurnool-518004 Andhra Pradesh, India. The equity shares of the Company are listed on BSE Limited (BSE) and National Stock Exchange of India Limited (NSE).

The standalone financial statements for the year ended March 31, 2025, were approved by the Board of Directors and authorised for issue on 30th May, 2025.

Note 2: Material Accounting Policies information

2.1 Basis of preparation and Measurement

(i) Statement of compliance and Basis for preparation

The standalone financial statements of the Company have been prepared in accordance with Indian Accounting Standards (referred to as Ind AS) as prescribed under Section 133 of Companies Act, 2013, (the ‘Act’) read with Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and presentation requirements of Division II of Schedule III to the Companies Act, 2013, as applicable and other relevant provisions of the Act.

The standalone financial statements have been prepared on a going concern basis. The accounting policies are applied consistently to all the periods presented in the standalone financial statements except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires change in accounting policy hitherto in use.

(ii) Functional and presentation currency

These standalone financial statements are presented in Indian Rupees (INR), which is also the Company’s functional currency. All financial information presented in Indian rupees have been rounded off to two decimal places to the nearest Lakhs unless otherwise stated.

(iii) Basis of measurement

The standalone financial statements have been prepared on accrual basis and natural heads of classification under the historical cost basis except for the following assets and liabilities which have been measured at fair value:

- Certain financial assets and liabilities: Measured at fair value.
- Net defined benefit (asset)/liability: Fair value of plan assets less present value of defined benefit obligations.
- Borrowings: Amortised cost using effective interest rate method.

**(iv) Use of estimates and judgments**

In preparing these standalone financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from those estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

Judgments

Information about judgments made in applying accounting policies that have the most significant effects on the amounts recognised in the standalone financial statements is included in the following notes:

- Note 2.2 (j) - lease classification;
- Note 2.2 (j) - leases: whether an arrangement contains a lease and lease classification.

Assumptions and estimation uncertainties

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment within the next financial year are included in the following notes:

- Note 2.2 (i) – measurement of defined benefit obligations: key actuarial assumptions;
- Note 2.2 (l) – recognition and measurement of provisions and contingencies: key assumptions about the likelihood and magnitude of an outflow of resources;
- Note 2.2 (h)– impairment of financial assets.
- Note 2.2 (f) - determining an asset's expected useful life and the expected residual value at the end of its life.

(v) Measurement of fair values

Accounting policies and disclosures require measurement of fair value for both financial and non-financial assets.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability; or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data is available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognizes transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Further information about the assumptions made in the measuring fair values is included in Note 40 - Fair value measurements.

(vi) Current and non-current classification:

The Schedule III to the Act requires assets and liabilities to be classified as either current or non-current. The Company presents assets and liabilities in the balance sheet based on current/non-current classification.

Assets

An asset is classified as a current when:

- it is expected to be realised in, or is intended for sale or consumption in, the Company's normal operating cycle;

- it is expected to be realised within twelve months from the reporting date;
- it is held primarily for the purposes of being traded; or
- it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting date.

All other assets are classified as non-current.

Liabilities

A liability is classified as a current when:

- it expects to settle the liability in its normal operating cycle;
- it is due to be settled within twelve months from the reporting date;
- it is held primarily for the purposes of being traded;
- The Company does not have an unconditional right to defer settlement of liability for at least twelve months from the reporting date.

All other liabilities are classified as non-current.

Deferred tax assets/liabilities are classified as non-current.

Operating Cycle

Operating cycle is the time between the acquisition of assets for processing and realisation in cash or cash equivalents. The Company has ascertained its operating cycle as 12 months for the purpose of current or non-current classification of assets and liabilities.

2.2. Summary of material accounting policy information

(a) Revenue recognition:

The company derives revenue mainly from manufacturing of chemicals and power generation.

Revenue is recognised to depict the transfer of control of promised goods and services to customers, upon the satisfaction of performance obligations under the contract in an amount that reflects consideration to which the company expects to be entitled in exchange of those goods and services.

To recognise revenues, the company apply the following five step approach Viz.,

- (1) Identify the Contract with customer
- (2) Identify the performance obligations in the contract;
- (3) Determine the transaction price;
- (4) Reallocate the transaction price to the performance obligation in the contract; and
- (5) Recognise the revenue when a performance obligation is satisfied.

For performance obligation satisfied overtime, Revenue recognition is made using

Input/output method based on performance completion till reporting date. The progress is measured in terms of a proportion of actual costs incurred to-date, to the total estimated cost attributable to the performance obligation as it best depicts the transfer of control that occurs as costs are incurred. Where performance obligation is satisfied at a point of time, the company recognise revenue when customer obtains control of promised goods and services in the contract.

The company transfers control of good and service over time and therefore Satisfies a performance obligation and recognises revenue over a period of time if one of the following criteria is met:

- (a) the consumer simultaneously consumes benefit of the company performance;
- (b) the consumer controls the asset as it is created/enhanced by the company's performance, or
- (c) There is no alternative use of the asset, and the company has either explicit or implicit sight of payment considering legal precedents,

In all other cases, performance obligation is considered as satisfied at a point of time as indicated in Para 2.1 (iv) Significant judgment and estimates are used in determining the revenue recognised in case of performance obligation satisfied over a period of time, measuring progress forwards complete satisfaction of performance obligation, determining expected credit losses and determining method to be applied to arrive at variable consideration requiring adjustments to the transaction price.

Revenue is exclusive of amounts collected on behalf of third parties

(b) Other Income:

(i) Interest Income:

Interest income is earned on loans and other deposits provided and on fixed deposits maintained with banks that are accrued on a time basis by reference to the principal outstanding at stipulated interest rates and at effective interest rate classified as FVTPL or FVTOCI. Interest receivable on customer dues, if any, receivable is recognised as income in the statement of profit & loss on accrual basis provided that there is no uncertainty of realisation.

(ii) Export Incentives: One of the products of the Company being exported is entitled for export incentives as per the schemes of Director General of Foreign Trade. The export incentives are accounted based on approval and reliability from Director General of Foreign Trade.

(iii) Dividend income: Dividend income is accounted in the period in which the right to receive the same is established.

(iv) Government Grants: Government grants which are revenue in nature and are towards compensation for the qualifying cost incurred by the Company, are recognized as other income without deducting from cost of asset. To compensate additional depreciation government grants is recognized in profit and loss account on a systematic basis over the expected useful life of the related asset.

(v) Rental Income from Investment property:

Rental income is accounted as per rental agreements executed for relevant investment property

(vi) Other Income:

Other items of income are accounted as and when right to receive such income arises, and it is probable that the economic benefit flow to the company and the amount of income can be measured monetarily and reliably.

(vii) Exceptional items

An item of income or expense which by its size, type or incidence requires disclosure in order to improve an understanding of the performance of the Company is treated as an exceptional item and disclosed as such in the financial statements.

(c) Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

(d) Foreign currencies

In preparing the financial statements of the entity, transactions in currencies other than the entity's functional currency (foreign currencies) are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences on monetary items are recognised in profit or loss in the period in which they arise except for:

- exchange differences on foreign currency borrowings relating to assets under construction for future productive use, which are included in the cost of those assets when they are regarded as an adjustment to interest costs on those foreign currency borrowings;
- exchange differences on transactions entered into in order to hedge certain foreign currency risks and
- exchange differences on monetary items receivable from or payable to a foreign operation for which settlement is neither planned nor likely to occur (therefore forming part of the net investment in the foreign operation), which are recognised initially in other comprehensive income and reclassified from equity to profit or loss on repayment of the monetary items.

(e) Financial instruments:

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

Initial recognition and measurement

All financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in two categories:

- Financial assets at amortised cost
- Equity instruments at fair value through other comprehensive income (FVTOCI)

Financial assets at amortised cost

'Financial asset' is measured at the amortized cost if both the following conditions are met:

- a. The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- b. Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at

cost using the effective interest rate (EIR) method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance income in the profit or loss. The losses arising from impairment are recognized in the profit or loss. This category generally applies to trade receivables.

Equity investments

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading and contingent consideration recognized by an acquirer in a business combination to which Ind AS103 applies are classified as at FVTPL. For all other equity instruments, the Company may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value.

The Company makes such election on an instrument by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Company decides to classify an equity instrument as at Fair Value through Other Comprehensive Income, then all fair value changes on the instrument, excluding dividends, are recognized in the Other Comprehensive Income. There is no recycling of the amounts from Other Comprehensive Income to Profit & Loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Equity instruments included within the Fair Value through Profit & Loss category are measured at fair value with all changes recognized in the Profit & Loss.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a Company of similar financial assets) is primarily derecognized (i.e. removed from the Company's balance sheet) when:

The rights to receive cash flows from the asset have expired, or

The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement~ And either

- (a) The Company has transferred substantially all the risks and rewards of the asset, or
- (b) The Company has neither transferred nor retained substantially all the risks and rewards of the asset but has transferred control of the asset.

Impairment of Financial assets

The Company recognizes loss allowances using the Expected Credit Loss (ECL) model for the financial assets which are not fair valued through profit or loss.

The Company follows “Simplified approach” for recognition of impairment loss allowance on trade receivables.

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognized is recognized as an impairment gain or loss in profit or loss.

As a practical expediency, the Company uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analyzed.

ECL impairment loss allowance (or reversal) recognized during the period is recognized as income/ expense in the statement of profit and loss (P&L). This amount is reflected under the head ‘other expenses’.

Financial liabilities

Initial recognition and measurement

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company’s financial liabilities include trade and other payables, loans and borrowings including bank overdrafts.

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Loans and borrowings

This is the category most relevant to the Company. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the EIR amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of profit and loss.

This category generally applies to borrowings.

Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit or loss.

(f) Property, plant and equipment

Land and buildings held for use in the production or supply of goods or services, or for administrative purposes, are stated in the standalone Balance Sheet at cost less accumulated depreciation and accumulated impairment losses. Free hold land is not depreciated.

Properties in the course of construction for production, supply or administrative purposes are carried at cost, less any recognised impairment loss. Cost includes professional fees and, for qualifying assets, borrowing costs capitalised in accordance with the Company's accounting policy. Such properties are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Fixtures and equipment are stated at cost less accumulated depreciation and accumulated impairment losses.

Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets. However, when there is no reasonable certainty that ownership will be obtained by the end of the lease term, assets are depreciated over the shorter of the lease term and their useful lives.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

Depreciation and amortisation

The Company depreciates property, plant and equipment over their estimated useful lives as specified in Schedule II to the Companies act, 2013 using the straight-line method.

Depreciation is recognized so as to write off the cost of assets (other than freehold land and under construction) less their residual values over their useful lives, using the straight-line method. Depreciation method are reviewed

at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

The useful life as prescribed under Schedule II of the Companies Act have been followed except in respect of the following categories of assets, in whose case the life of the assets has been assessed as under based on technical advice, taking into account the nature of the asset, the estimated usage of the asset, the operating condition of the asset, past history of replacement, anticipated technological changes, manufacturers warranties and maintenance support, etc.,

The estimated useful lives are as follows:

Particulars	Years
Buildings	
-Factory and administrative buildings	20
-Ancillary structures	20
Plant and equipment	8
Furniture, fixtures and office equipment	5

Useful lives of depreciable assets

Management reviews the useful lives of depreciable assets at each reporting. As at March 31st, 2025 management assessed that the useful lives represent the expected utility of the assets to the company. Further, there is no significant change in the useful lives as compared to previous year.

(g) Inventories

Inventories are stated at the lower of cost and net realisable value. Costs of inventories are determined on a weighted average cost basis. Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale.

(h) Impairment of tangible and intangible assets other than goodwill

At the end of each reporting period, the Company reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest Company of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss.

When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

(i) Employee benefits

Retirement benefit costs and termination benefits

Payments to defined contribution retirement benefit plans are recognised as an expense when employees have rendered service entitling them to the contributions.

For defined benefit retirement benefit plans, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. Remeasurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding interest), is reflected immediately in the statement of financial position with a charge or credit recognised in other comprehensive income in the period in which they occur. Remeasurement recognised in other comprehensive income is reflected immediately in retained earnings and will not be reclassified to profit or loss. Past service cost is recognised in profit or loss in the period of a plan amendment. Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset. Defined benefit costs are categorised as follows:

- service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements);
- net interest expense or income; and
- Remeasurement.

The Company presents the first two components of defined benefit costs in profit or loss in the line item 'Employee benefits expense'. Curtailment gains and losses are accounted for as past service costs.

The retirement benefit obligation recognised in the statement of financial position represents the actual deficit or surplus in the Company's defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plans or reductions in future contributions to the plans.

A liability for a termination benefit is recognised at the earlier of when the entity can no longer withdraw the offer of the termination benefit and when the entity recognises any related restructuring costs.

Short-term and other long-term employee benefits

A liability is recognised for benefits accruing to employees in respect of wages and salaries, annual leave and sick leave in the period the related service is rendered at the undiscounted amount of the benefits expected to be paid in exchange for that service.

Liabilities recognised in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service.

Liabilities recognised in respect of other long-term employee benefits are measured at the present value of the estimated future cash outflows expected to be made by the Company in respect of services provided by employees up to the reporting date.

Contributions from employees or third parties to defined benefit plans

Discretionary contributions made by employees or third parties reduce service cost upon payment of these contributions to the plan.

When the formal terms of the plans specify that there will be contributions from employees or third parties, the accounting depends on whether the contributions are linked to service, as follows:

- If the contributions are not linked to services (e.g. contributions are required to reduce a deficit arising from losses on plan assets or from actuarial losses), they are reflected in the measurement of the net defined benefit liability (asset).
- If contributions are linked to services, they reduce service costs. For the amount of contribution that is dependent on the number of years of service, the entity reduces service cost by attributing the contributions to periods of service using the attribution method required by Ind AS 19 for the gross benefits. For the amount of contribution that is independent of the number of years of service, the entity [reduces service cost in the period in which

the related service is rendered / reduces service cost by attributing contributions to the employees' periods of service in accordance with Ind AS 19.

(j) Leasing

Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single on-Balance Sheet model.

The standard includes two recognition exemptions for lessees – leases of 'low-value' assets (e.g., personal computers) and short-term leases (i.e., leases with a lease term of 12 months or less). At the commencement date of a lease, a lessee will recognize a liability to make lease payments (i.e., the lease liability) and an asset representing the right to use the underlying asset during the lease term (i.e., the right-of-use asset). Lessees will be required to separately recognize the interest expense on the lease liability and the depreciation expense on the right-of-use asset.

Lease is 'a contract or part of a contract that conveys the right to use an asset (the underlying asset) for a period of time in exchange for consideration'. An underlying asset has been defined to mean an

Asset that is the subject of lease, for which the right to use that asset has been provided by a lessor or lessee.

Measurement of lease liability

On the date of transition lease liability is measured at present value of lease payments that are not paid as at the date of transition.

After the transition date lease liability is measured at amortized cost using the effective interest method.

Subsequently the company measures the lease liability by increasing the carrying amount to reflect the interest on the lease liability; reducing the carrying amount to reflect the lease payments made; and re-measuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments.

The Company uses the incremental borrowing rate which is the rate of interest that a lessee would have to pay over a similar term, and with a similar security, the funds necessary to obtain an asset of similar value of the right-to-use asset in a similar economic environment.

Right-of-use asset (ROU)

This is measured as lease liability adding any initial direct costs, prepaid lease payments, cost to dismantle or restore less lease incentives.

**After the commencement date, the Company measures the ROU at cost:**

- Less any accumulated depreciation and any accumulate impairment losses; and
- Adjusted for any re-measurement of the lease liability on subsequent to lease commencement date

A Company applies the depreciation requirement in Ind AS 16 while depreciating ROU asset. The said asset is depreciated over a period of lease term unless in case where ownership of underlying asset is transferred. In such case, the asset is depreciated over the useful life of underlying asset. Also, impairment requirements as per Ind AS 36 is applied by the Company

(k) Tax expenses

Income tax expense represents the sum of the tax currently payable and deferred tax.

Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the standalone (statement of profit or loss and other comprehensive income/ statement of profit or loss) because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. In addition, deferred tax liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries and associates, and interests in joint ventures, except where the Company is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are

only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Current and deferred tax for the year

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

(I) Provisions and contingencies

A Provision is recognised when the company has a present obligation (legal or constructive) as a result of past event i.e., it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent liability is disclosed for:

- Possible obligations which will be confirmed only by future events not wholly within the control of the company or
- Present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.
- Contingent liabilities and assets are not recognised in financial statements. A disclosure of the contingent liability is made when there is a possible or a present obligation that may, but probably will not, require an outflow of resources.

**(m) Government grants**

Government grants are not recognised until there is reasonable assurance that the Company will comply with the conditions attached to them and that the grants will be received.

Government grants are recognised in profit or loss on a systematic basis over the periods in which the Company recognises as expenses the related costs for which the grants are intended to compensate. Specifically, government grants whose primary condition is that the Company should purchase, construct or otherwise acquire non-current assets are recognised as deferred revenue in the standalone statement of financial position and transferred to profit or loss on a systematic and rational basis over the useful lives of the related assets.

Government grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Company with no future related costs are recognised in profit or loss in the period in which they become receivable.

The benefit of a government loan at a below-market rate of interest is treated as a government grant, measured as the difference between proceeds received and the fair value of the loan based on prevailing market interest rates.

(n) Earning per equity share

Basic earnings per equity share is calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period.

For the purpose of calculating diluted earnings per equity share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares. In computing the dilutive earnings per share, only potential equity shares that are dilutive and that either reduces the earnings per share or increases loss per share are included.

(o) Statement of Cash flow

Cash flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payment and items of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

(p) Investment property

Investment properties are properties held to earn rentals and/or for capital appreciation (including property under construction for such purposes). Investment properties are recognised initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are measured

at cost less accumulated depreciation and accumulated impairment losses if any.

Depreciation on buildings is calculated using straight line method to allocate their cost, net of residual values, over their estimated useful lives, depreciation is provided on useful life of assets as prescribed in schedule III to the Companies Act, 2013.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the period in which the property is derecognised.

(q) Segment Reporting

The management has assessed the identification of reportable segments in accordance with the requirements of Ind AS 108 'Operating Segments' and the company has disclosed three reportable segments namely (i) Chemical Manufacturing, (ii) Power Generation and (iii) Trading in coal. Further, the Board of directors have designated the Managing Director as Chief Operating Decision Marker ('CODM').

(r) Estimates and assumptions

The preparation of the Company's financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities.

Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

The Company applies judgment to determine whether each product or services promised to a customer are capable of being distinct, and are distinct in the context of the contract, if not, the promised product or services are combined and accounted as a single performance obligation. The Company allocates the arrangement consideration to separately identifiable performance obligation deliverables based on their relative stand-alone selling price. Because the financial reporting of these contracts depends on estimates that are assessed continually during the term of these contracts, recognized revenue and profit are subject to revisions as the contract progresses to completion.

Allowance for expected credit losses:

It describes the use of practical expedient by computing the expected credit loss allowance for trade receivables based on provision matrix. The expected credit allowance is based on the aging of the days receivables which are past due and the rates derived based on past history of defaults in the provision matrix.

**Fair value of investments:**

The Company has invested in the equity instruments of various companies. However, the percentage of shareholding of the Company in such investee companies is very low and hence, it has not been provided with future projections including projected profit and loss account by those investee companies. Hence, the valuation exercise carried out by the Company with the help of available historical annual reports and other information in the public domain.

Taxes

Deferred tax assets are recognized for unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilized. Significant management judgment is required to determine the amount of deferred tax assets that can be recognized, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

Contingent liability judgement:

Contingent liabilities are claims against the Company not acknowledged as debt. Contingencies may arise from the ordinary course of business in relation to claims against the Company, including legal, contractor and other claims. By their nature, contingencies will be resolved only when one or more uncertain future events occur or fail to occur. The assessment of the existence, and potential quantum of contingencies inherently involve the exercise of significant judgment and the use of estimates regarding the outcome of future events.

(s) Recent pronouncements:

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time, MCA has notified following amendments:

- 1) During the year ended March 31, 2025, MCA has notified Ind AS 117 – Insurance Contracts and amendments to Ind AS 116 – Leases, relating to sale and lease back transactions, applicable from April 01, 2024. The Company has assessed that there is no significant impact on its financial statements.
- 2) Ind AS 21 The Effects of Changes in Foreign Exchange Rates to specify how an entity should assess whether a currency is exchangeable and how it should determine a spot exchange rate when exchangeability is lacking. The amendments also require disclosure of information to enable understand the impact on entity's financial performance, financial position and cash flows. The amendments are effective for annual reporting periods beginning on or after April 01, 2025. When applying the amendments, an entity cannot restate comparative information. The Company has reviewed the new pronouncements and based on its evaluation has determined that it does not have any significant impact on its financial statements.

Fair value of Investment properties Rs.1892.66 lakhs

Estimation of fair value

- 1) The Company obtains independent valuations for its investment properties annually. The best evidence of fair value is current prices in an active market for similar properties. Where such information is not available, the Company considers information from a variety of sources including:

- Rates as per Sub Registrar Office
- current prices in an active market for properties of different nature.
- recent prices of similar properties in less active markets, adjusted to reflect those differences

The main input used is the price per square metre as per the State Government's Registration and Stamps Department rate for the property. All resulting fair value estimates for investment properties are included in level 2.

- 2) Income and operating expenses of Investment Property:

- Rental income - Rs.143.52 lakhs

The Average credit period on sales is 60 days

No interest is charged on Trade Receivables for delay in payment beyond credit period from the due date of the Invoice.

The Company has used a practical expediency by computing the expected credit loss allowance for Trade Receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and adjusted for forward looking information. The expected credit loss allowance is based on the ageing of the days the receivables are due and the rates are given in the provision matrix. The provision matrix at the end of the Reporting Period is as follows :

* Refer Note 46 for related party transactions.

** Based on the above data, As there is a sufficient provision, it is carried forward from previous year. No additional provision is made during the current year. The provision for expected credit loss being higher is continued on a prudent basis for unexpected credit losses.

Investment property	-	1,892.66	-	1,892.66
Total Financial assets	24,657.57	2,505.74	-	27,163.31

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments, traded bonds and mutual funds that have quoted price. The fair value of all equity instruments (including bonds) which are traded in the stock exchanges is valued using the closing price as at the reporting period.

Level 2: The fair value of financial instruments that are not traded in an active market (for example, traded bonds, over-the-counter derivatives) is determined using valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities included in level 3.

There are no transfers between levels 1 and 2 during the year.

**Note 41: Capital Management & Risk Management****Capital management**

The Company being in a capital intensive industry, its objective is to maintain a strong credit rating healthy capital ratios and establish a capital structure that would maximise the return to stakeholders through optimum mix of debt and equity. The Company's capital requirement is mainly to fund its capacity expansion, repayment of principal and interest on its borrowings. The principal source of funding of the Company has been, and is expected to continue to be, cash generated from its operations supplemented by funding from bank borrowings. The Company is not subject to any externally imposed capital requirements. The Company regularly considers other financing and refinancing opportunities to diversify its debt profile, reduce interest cost and align maturity profile of its debt commensurate with life of the assets, and closely monitors its judicious allocation amongst competing capital expansion projects to capture market opportunities at minimum risk.

Gearing ratio

The Company monitors its capital using gearing ratio as given below:

Particulars	As at 31st March, 2025	As at 31st March, 2024
Total Debt	-	-
Equity share capital	1,716.48	1,716.48
Other equity	90,516.25	78,489.32
Total equity	92,232.74	80,205.81
Total debt to Total equity ratio	-	-

Financial risk management and objectives and policies

This note explains the sources of risk which the entity is exposed to and how the entity manages the risk and the impact in the financial statements.

A Special Team with Senior Executives having exposure in various fields has been formed to assist Chief Financial Officer (CFO) in (a) Overseeing and approving the Company's enterprise wide risk management framework, and (b) Overseeing that all the risks that the organisation faces such as market risk (including currency risk, interest rate risk and other price risk), Credit risk and liquidity risk have been identified and assessed and there is an adequate risk management infrastructure in place capable of addressing those risks. The CFO, monitors and reports on the principal risks and uncertainties that can impact the company and its ability to achieve strategic objectives. The Company's management systems, organisational structures, processes, standards, code of conduct and behaviors together form the Management and business of the Company.

**Notes to financial statements for the year ended 31st March, 2025 (Contd...)***(All amounts in ₹ Lakhs, except otherwise stated)***A. Market risk**

The Company is exposed to market risk through changes in foreign currency exchange rates and changes in interest rates. Financial assets/liabilities affected by this risk are borrowings, letter of credits and trade receivables.

The Company's investments in equity securities are susceptible to price risk arising from uncertainties about future value of the investment securities. The Company's non-current investment in equity shares are strategic investments and hence are considered as Fair Value through Other Comprehensive Income. The company's Board of Directors reviews and approves all equity investment decisions.

Foreign Currency risk management

The Company operates internationally and is exposed to foreign currency risk arising from foreign currency transactions, primarily with respect to the US\$. Foreign exchange risk arises from import as well as exports of goods. The risk is measured through a forecast of highly probable foreign currency cash flows.

The special team as mentioned above analysis the options for hedging. Based on the analysis the management takes decision regarding hedging of foreign currency exposures. Currently, the Company has not hedged any of the foreign currency transactions in the view of the natural hedging. The natural hedging is sufficient to manage the current foreign currency risk management.

The carrying amounts of the Company's foreign currency denominated monetary assets and monetary liabilities are restated at the end of each reporting period. The same at the end of the reporting period are as follows :

Particulars	As at 31st March, 2025		As at 31st March, 2024	
	Currency	Amount in FC	Currency	Amount in FC
Receivables for export	USD	25.98	USD	29.58
Receivables for export	EURO	1.31	EURO	2.79
Payables for imports	USD	-	USD	1.97

Foreign Currency Sensitivity Analysis

The Company is mainly exposed to US Dollar.

The following tables demonstrate the sensitivity to a reasonably possible change in USD exchange rates, with all other variables held constant. The Company's exposure to foreign currency changes for all other currencies is not material.

**Notes to financial statements for the year ended 31st March, 2025 (Contd...)***(All amounts in ₹ Lakhs, except otherwise stated)*

Particulars	As at 31st March, 2025	As at 31st March, 2024
USD/EURO Sensitivity		
Impact due to increase by 5%	117.22	127.71
Impact due to decrease by 5%	(117.22)	(127.71)

Interest Rate Risk Management

Interest rate risk is the risk that the fair value or future cash flows of a financial instruments will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's borrowings with floating base interest rates. Based on the interest rate sensitivity the Company decides on the management of interest rate risk. The Company manages by having a balanced portfolio of variable and fixed interest rate borrowings.

B. Credit risk

Credit risk refers to the risk that the counterparty will default on its contractual obligations resulting in financial loss to the Company. The Company is operating through network of dealers based at different locations. Regular monitoring of the receivables is undertaken by the Marketing Department and in case the limits are exceeded, steps will be taken by the Marketing departments and after discussing with the management the Company will decide whether to stop or not further supplies to the concerned dealer till the amount outstanding is recovered. For the export made by the Company, the sales are backed by letters of credit or advance receipts. The internal risk management committee of the Company meets regularly to discuss the dealers and credit risks, measures taken to address them and the status and level of risk after the measures taken. Export sales are fully secured through letters of credit or against advance receipts. (refer Note No.9 for Trade Receivables outstanding).

C. Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due and to close out market positions. Due to the dynamic nature of the underlying businesses, Company maintains flexibility in funding by maintaining availability under committed credit lines.

Ultimate responsibility for liquidity risk management rests with the board of directors, which has established an appropriate liquidity risk management framework for the management of the Company's short-term, medium-term and long-term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

Nature of Benefits:

The Company operates a defined benefit final salary gratuity plan which is open to new entrants. The gratuity benefits payable to the employees are based on the employee's service and last drawn salary at the time of leaving. The employees do not contribute towards this plan and the full cost of providing these benefits are met by the Company.

i. Regulatory Framework:

There are no minimum funding requirements for a gratuity plan in India. The trustees of the gratuity fund have a fiduciary responsibility to act according to the provisions of the trust deed and rules. Since the fund is income tax

approved, the Company and the trustees have to ensure that they are at all times fully compliant with the relevant provisions of the income tax and rules. Besides this if the Company is covered by the Payment of Gratuity Act, 1972 then the Company is bound to pay the statutory minimum gratuity as prescribed under this Act.

ii. Governance of the Plan:

The Company has setup an income tax approved irrevocable trust fund to finance the plan liability. The trustees of the trust fund are responsible for the overall governance of the plan.

iii. Risk exposures:

Valuations are performed on certain basic set of pre-determined assumptions and other regulatory framework which may vary over time. Thus, the Company is exposed to various risks in providing the above benefit which are as follows:

- (a) Interest Rate risk: The plan exposes the Company to the rise of fall in interest rates. A fall in interest rates will result in an increase in the ultimate cost of providing the above benefit and will thus result in an increase in the value of the liability (as shown in financial statements).
- b) Liquidity Risk: This is the risk that the Company is not able to meet the short-term Benefit payouts. This may arise due to non availability of enough cash / cash equivalent to meet the liabilities or holding of illiquid assets not being sold in time.
- (c) Salary escalation Risk: The present value of the defined benefit plan is calculated with the assumption of salary increase rate of plan participants in future. Deviation in the rate of increase of salary in future for plan participants from the rate of increase in salary used to determine the present value of obligation will have a bearing on the plan's liability.
- (d) Demographic Risk: The Company has used certain mortality and attrition assumptions in valuation of the liability. The Company is exposed to the risk of actual experience turning out to be worse compared to the assumption.
- (e) Regulatory Risk: Benefit is paid in accordance with the Provisions of Gratuity Act 1972 (as may be amended from time to time). There is a risk of change in provisions of Gratuity Act requiring higher Plan Benefit pay outs (e.g. change in benefit formula).
- (f) Asset Liability Mismatching or Market Risk: The duration of the liability is longer compared to duration of assets, exposing the Company to market risk for volatilities/fall in interest rate.
- (g) Investment Risk: The probability or likelihood of occurrence of losses relative to the expected return on any particular investment.

**Standalone****Notes to financial statements for the year ended 31st March, 2025 (Contd...)***(All amounts in ₹ Lakhs, except otherwise stated)***(b) Financial assumptions**

Particulars	For the Year ended 31st March, 2025	For the Year ended 31st March, 2024
Discount rate(p.a)	6.70%	7.20%
Expected rate of return (p.a)	7.67%	7.67%
Salary escalation rate (p.a)	7.00%	7.00%

vii. Sensitivity Analysis:

Gratuity is a lump sum plan and the cost of providing these benefits is typically less sensitive to small changes in demographic assumptions. The key actuarial assumptions to which the benefit obligation results are particularly sensitive to are discount rate and future salary escalation rate. The following table summarizes the change in defined benefit obligation and impact in percentage terms compared with the reported defined benefit obligation at the end of the reporting period arising on account of an increase or decrease in the reported assumption by 50 basis points.

Particulars	Period Ended 31 Mar 2025	
	Discount Rate	Salary Escalation Rate
Defined benefit obligation on increase in 50 bps	53,975,563	57,807,840
Impact of increase in 50 bps on DBO	-3.42%	3.62%
Defined benefit obligation on decrease in 50 bps	57,823,135	53,972,184
Impact of decrease in 50 bps on DBO	3.65%	-3.42%

These sensitivities have been calculated to show the movement in defined benefit obligation in isolation and assuming there are no other changes in market conditions at the accounting date. There have been no changes from the previous periods in the methods and assumptions used in preparing the sensitivity analyses.

Special Events:

There are no special events such as benefit improvements or curtailments or settlements during the inter-valuation period.

viii. Asset Liability Matching Reserves: The Company has Life Insurance Corporation (Group Gratuity Manager) for administering the Plan liability. The funds of the Plan liability are invested by the Life Insurance Corporation, (LIC), pay the benefits to members of the enterprise as per Rules of the LIC. So the LIC is exposed to the liquidity risk of not being able to arrange for the benefit outgo due to cash liquidity problems and so the LIC faces a liquidity risk.

**ix. Funding Arrangements & Policy:**

The money contributed by the Company to the fund to finance the liabilities of the plan has to be invested.

The trustees of the plan have outsourced the investment management of the fund to an insurance company. The insurance company in turn manages these funds as per the mandate provided to them by the trustees and the asset allocation which is within the permissible limits prescribed in the insurance regulations. Due to the restrictions in the type of investments that can be held by the fund, it is not possible to explicitly follow an asset-liability matching strategy to manage risk actively.

There is no compulsion on the part of the Company to fully pre fund the liability of the Plan. The Company's philosophy is to fund the benefits based on its own liquidity and tax position as well as level of under funding of the plan.

The expected contribution payable to the plan next year is INR 2,000,000.

x. Projected plan cash flow and maturity profile:

The table below shows the expected cash flow profile of the benefits to be paid to the current membership of the plan based on past service of the employees as at the valuation date:

Maturity Profile	(In ₹)
Expected benefits for year 1	11,274,881
Expected benefits for year 2	3,938,574
Expected benefits for year 3	6,442,046
Expected benefits for year 4	4,940,160
Expected benefits for year 5	7,989,612
Expected benefits for year 6	4,589,725

Expected benefits for year 8	3,969,212
Expected benefits for year 9	3,413,420
Expected benefits for year 10 and above	47,196,168

The weighted average duration to the payment of these cash flows is 7.06 years.

Consolidated Financial Statements

**INDEPENDENT AUDITOR'S REPORT****TO THE MEMBERS****SREE RAYALASEEMA HI-STRENGTH HYPO LIMITED****Report on the Audit of the Consolidated Financial Statements****Opinion**

We have audited the accompanying Consolidated Financial Statements of Sree Rayalaseema Hi-Strength Hypo Limited (here in after referred to as the "Holding Company") and its subsidiary (Holding Company and its subsidiary together referred to as 'the Group'), which comprise the Consolidated Balance Sheet as at 31 March 2025, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows for the year then ended, and notes to the Consolidate Financial Statements, including material accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Consolidated Financial Statements give the information required by the Companies Act, 2013 ('the Act') in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards ('Ind AS') prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015 as amended and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at 31 March 2025, of its consolidated profit and other comprehensive income (comprising of profit and other comprehensive income), consolidated Statement of changes in equity and consolidated Statement of cash flows for the year then ended.

Basis for opinion

We conducted our audit of the Consolidated Financial Statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the "Auditor's Responsibilities for the Audit of the Consolidated Financial Statements" section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the Consolidated Financial Statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their reports except in case of a subsidiary, which is not material, referred to in the Other Matters section below is sufficient and appropriate to provide a basis for our audit opinion on the Consolidated Financial Statements.

Key audit matters

Key audit matters ('KAM') are those matters that, in our professional judgment, were of most significance in our audit of the Consolidated Financial Statements of the current period. These matters were addressed in the context of our audit of the Consolidated Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the Consolidated financial statements section of our report, including in relation to these matters.

Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the Consolidated financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying Consolidated financial statements.

Key audit matters:

Key Audit Matter	Auditor's Response
Revenue Recognition The application of the new revenue accounting standard involves certain key judgements relating to identification of distinct performance obligations, determination of transaction price of the identified performance obligations, the appropriateness of the basis used to measure revenue recognized over a period. Revenue from sale of goods is recognized when control of the products being sold is transferred to our customer and when there are no longer any unfulfilled obligations. The application of the new revenue accounting standard involves certain significant judgements and estimates made by the management including identification of distinct performance obligations, determination of transaction price of the identified performance obligations, determination of transaction price, the appropriateness of the basis used to measure revenue recognized over a period. Revenue is only recognised to the extent that it is highly probable a significant reversal will not occur. Accumulated expenses are used to estimate provisions of discounts, rebates. (Refer Note 2.2(a) of the consolidated financial statements.)	Principal Audit Procedures We reviewed the Company's implementation of Ind AS 115, including recognition of the effect on opening equity and changes to procedures, accounting guidelines, disclosures and systems to support correct revenue recognition. We reviewed and discussed the accounting policy including the key accounting estimates and judgements made by management. We tested the relevant internal controls used to ensure the completeness, accuracy and timing of revenue recognised. We read a sample of contracts to assess whether the method for recognition of revenue was relevant and consistent with Ind AS 115 and had been applied consistently. We focused on contract classification, allocation of income and cost to the individual performance obligations and timing of transfer of control. We evaluated the significant judgements and estimates made by management in applying accounting policy to sample of contracts and we obtained evidence to support them, including contractual agreements, delivery records. We also considered the historical outturns of estimates used in prior periods. We applied Audit Techniques to establish, whether any revenue has been recognized where no corresponding accounts receivable or cash has been recorded in the general ledger.

Other Information

The Holding Company's Management and Board of Directors are responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures thereto, Business Responsibility Report, Sustainability Report, Corporate Governance and Shareholder's Information, but does not include the Consolidated Financial Statements, Standalone Financial Statements and our auditor's report thereon.

Our opinion on the Consolidated Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Consolidated Financial Statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the Consolidated Financial Statements, or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

When we read the additional information, as mentioned above, that would be included in the Integrated Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take appropriate actions as applicable under the relevant laws and regulations.

Responsibility of Management and Those Charged with Governance for the Consolidated Financial Statements

The Holding Company's management and Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation and presentation of these Consolidated Financial Statements that give a true and fair view of the consolidated financial position, consolidated financial performance and comprehensive income, consolidated statement of changes in equity and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including Indian Accounting Standards ("Ind AS") specified under section 133 of the Act read with Companies (Indian Accounting Standards) Rules, 2015, as amended. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Consolidated Financial Statements that give a true and fair view and are free from material misstatement,

whether due to fraud or error, which have been used for the purpose of preparation of the Consolidated Financial Statements by the directors of the Holding Company, as aforesaid.

In preparing the Consolidated Financial Statements, the respective management and Board of Directors of the companies included in the Group are responsible for assessing the ability of each companies to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Board of Directors either intends to liquidate the entity or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the entities included in the Group are responsible for overseeing the financial reporting process of the Group.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the Consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Holding Company and its subsidiary companies which are incorporated in India, has adequate internal financial controls with reference to Consolidated Financial Statements in place system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting in preparation of Consolidated Financial Statements and

based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the appropriateness of this assumption. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Consolidated Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the Consolidated Financial Statements, including the disclosures, and whether the Consolidated Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtained sufficient appropriate audit evidence regarding the financial information of such entities or business activities within the Group of which we are independent auditors, to express an opinion on the Consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the Consolidated Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Consolidated Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Consolidated Financial Statements.

We communicate with those charged with governance of the Holding Company and such other entities included in the Consolidated Financial Statements of which we are the independent auditor's regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Consolidated Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we

determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

**Annexure A to the Independent Auditors' Report**

(Referred to in paragraph 1 (f) under 'Report on Other Legal and Regulatory Requirements' section of our report to the Members of Sree Rayalaseema Hi-Strength Hypo Limited of even date)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of Consolidated Financial Statements of the Sree Rayalaseema Hi-Strength Hypo Limited ("the Holding Company") as of and for the year ended 31 March 2025, we have audited the internal financial controls with reference to the consolidated financial statements of the Holding Company and its subsidiaries (Holding Company and its subsidiaries together referred as 'the Group') which are incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The respective management and Board of Directors of the Holding company and its subsidiary companies are responsible for establishing and maintaining internal financial controls based on the internal control with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the Orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the Holding company's internal financial controls with reference to consolidated financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to consolidated financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial control system with reference to consolidated financial statements and their operating effectiveness. Our audit of internal financial controls with reference to consolidated financial statements included obtaining an understanding of internal financial controls over to financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Holding company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls with reference to Consolidated Financial Statements

A company's internal financial control with reference to consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to consolidated financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of consolidated financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the consolidated financial statements.

Inherent Limitations of Internal Financial Controls with reference to Consolidated Financial Statements

Because of the inherent limitations of internal financial controls with reference to consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to consolidated financial statements to future periods are subject to the risk that the internal financial control with reference to consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

**Opinion**

In our opinion, to the best of our information and according to the explanations given to us, the Holding company and its subsidiary companies has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2025, based on the criteria for internal financial control over financial reporting established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

presented in Indian rupees have been rounded off to two decimal places to the nearest Lakhs unless otherwise stated.

(iv) Basis of measurement

The consolidated financial statements have been prepared on accrual basis and natural heads of classification under the historical cost basis except for the following assets and liabilities which have been measured at fair value:

- Certain financial assets and liabilities: Measured at fair value.
- Net defined benefit (asset)/liability: Fair value of plan assets less present value of defined benefit obligations.
- Borrowings: Amortised cost using effective interest rate method.

(v) Use of estimates and judgments

In preparing these consolidated financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from those estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

Judgments

Information about judgments made in applying accounting policies that have the most significant effects on the amounts recognised in the consolidated financial statements is included in the following notes:

- Note 2.2 (j) - lease classification;
- Note 2.2 (j) - leases: whether an arrangement contains a lease and lease classification.

Assumptions and estimation uncertainties

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment within the next financial year are included in the following notes:

- Note 2.2 (i) – measurement of defined benefit obligations: key actuarial assumptions;
- Note 2.2 (l) – recognition and measurement of provisions and contingencies: key assumptions about the likelihood and magnitude of an outflow of resources;
- Note 2.2 (h)– impairment of financial assets.
- Note 2.2 (f) - determining an asset's expected useful life and the expected residual value at the end of its life.

**(vi) Measurement of fair values**

Accounting policies and disclosures require measurement of fair value for both financial and non-financial assets.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability; or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data is available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognizes transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Further information about the assumptions made in the measuring fair values is included in Note 40 - Fair value measurements.

(vii) Current and non-current classification:

The Schedule III to the Act requires assets and liabilities to be classified as either current or non-current. The Company presents assets and liabilities in the balance sheet based on current/non-current classification.

Assets

An asset is classified as a current when:

- it is expected to be realised in, or is intended for sale or consumption in, the Company's normal operating cycle;
- it is expected to be realised within twelve months from the reporting date;
- it is held primarily for the purposes of being traded; or
- it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting date.

All other assets are classified as non-current.

Liabilities

A liability is classified as a current when:

- it expects to settle the liability in its normal operating cycle;
- it is due to be settled within twelve months from the reporting date;
- it is held primarily for the purposes of being traded;
- The Company does not have an unconditional right to defer settlement of liability for at least twelve months from the reporting date.

All other liabilities are classified as non-current.

Deferred tax assets/liabilities are classified as non-current.

Operating Cycle

Operating cycle is the time between the acquisition of assets for processing and realisation in cash or cash equivalents. The Company has ascertained its operating cycle as 12 months for the purpose of current or non-current classification of assets and liabilities.

2.2. Summary of material accounting policy information

(a) Revenue recognition:

The company derives revenue mainly from manufacturing of chemicals and power generation.

Revenue is recognised to depict the transfer of control of promised goods and services to customers, upon the satisfaction of performance obligations

under the contract in an amount that reflects consideration to which the company expects to be entitled in exchange of those goods and services.

To recognise revenues, the company apply the following five step approach Viz.,

- (1) Identify the Contract with customer
- (2) Identify the performance obligations in the contract;
- (3) Determine the transaction price;
- (4) Reallocate the transaction price to the performance obligation in the contract; and
- (5) Recognise the revenue when a performance obligation is satisfied.

For performance obligation satisfied overtime, Revenue recognition is made using

Input/output method based on performance completion till reporting date. The progress is measured in terms of a proportion of actual costs incurred to-date, to the total estimated cost attributable to the performance obligation as it best depicts the transfer of control that occurs as costs are incurred. Where performance obligation is satisfied at a point of time, the company recognise revenue when customer obtains control of promised goods and services in the contract.

The company transfers control of good and service over time and therefore Satisfies a performance obligation and recognises revenue over a period of time if one of the following criteria is met:

- (a) the consumer simultaneously consumes benefit of the company performance;
- (b) the consumer controls the asset as it is created/enhanced by the company's performance, or
- (c) There is no alternative use of the asset, and the company has either explicit or implicit sight of payment considering legal precedents,

In all other cases, performance obligation is considered as satisfied at a point of time as indicated in Para 2.1(v) Significant judgment and estimates are used in determining the revenue recognised in case of performance obligation satisfied over a period of time, measuring progress forwards complete satisfaction of performance obligation, determining expected credit losses and determining method to be applied to arrive at variable consideration requiring adjustments to the transaction price.

Revenue is exclusive of amounts collected on behalf of third parties

**(b) Other Income:****(i) Interest Income:**

Interest income is earned on loans and other deposits provided and on fixed deposits maintained with banks that are accrued on a time basis by reference to the principal outstanding at stipulated interest rates and at effective interest rate classified as FVTPL or FVTOCI. Interest receivable on customer dues, if any, receivable is recognised as income in the statement of profit & loss on accrual basis provided that there is no uncertainty of realisation.

(ii) Export Incentives: One of the products of the Company being exported is entitled for export incentives as per the schemes of Director General of Foreign Trade. The export incentives are accounted based on approval and reliability from Director General of Foreign Trade.

(iii) Dividend income: Dividend income is accounted in the period in which the right to receive the same is established.

(iv) Government Grants: Government grants which are revenue in nature and are towards compensation for the qualifying cost incurred by the Company, are recognized as other income without deducting from cost of asset. To compensate additional depreciation government grants is recognized in profit and loss account on a systematic basis over the expected useful life of the related asset.

(v) Rental Income from Investment property:

Rental income is accounted as per rental agreements executed for relevant investment property

(vi) Other Income:

Other items of income are accounted as and when right to receive such income arises, and it is probable that the economic benefit flow to the company and the amount of income can be measured monetarily and reliably.

(vii) Exceptional items

An item of income or expense which by its size, type or incidence requires disclosure in order to improve an understanding of the performance of the Company is treated as an exceptional item and disclosed as such in the financial statements.

(c) Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially

ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

(d) Foreign currencies

In preparing the financial statements of the entity, transactions in currencies other than the entity's functional currency (foreign currencies) are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences on monetary items are recognised in profit or loss in the period in which they arise except for:

- exchange differences on foreign currency borrowings relating to assets under construction for future productive use, which are included in the cost of those assets when they are regarded as an adjustment to interest costs on those foreign currency borrowings;
- exchange differences on transactions entered into in order to hedge certain foreign currency risks and
- exchange differences on monetary items receivable from or payable to a foreign operation for which settlement is neither planned nor likely to occur (therefore forming part of the net investment in the foreign operation), which are recognised initially in other comprehensive income and reclassified from equity to profit or loss on repayment of the monetary items.

(e) Financial instruments:

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

Initial recognition and measurement

All financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in

two categories:

- Financial assets at amortised cost
- Equity instruments at fair value through other comprehensive income (FVTOCI)

Financial assets at amortised cost

'Financial asset' is measured at the amortized cost if both the following conditions are met:

- a. The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- b. Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at cost using the effective interest rate (EIR) method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance income in the profit or loss. The losses arising from impairment are recognized in the profit or loss. This category generally applies to trade receivables.

Equity investments

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading and contingent consideration recognized by an acquirer in a business combination to which Ind AS103 applies are classified as at FVTPL. For all other equity instruments, the Company may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value.

The Company makes such election on an instrument by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Company decides to classify an equity instrument as at Fair Value through Other Comprehensive Income, then all fair value changes on the instrument, excluding dividends, are recognized in the Other Comprehensive Income. There is no recycling of the amounts from Other Comprehensive Income to Profit & Loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Equity instruments included within the Fair Value through Profit & Loss category are measured at fair value with all changes recognized in the Profit & Loss.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a

Company of similar financial assets) is primarily derecognized (i.e. removed from the Company's balance sheet) when:

The rights to receive cash flows from the asset have expired, or

The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement~ And either

- (a) The Company has transferred substantially all the risks and rewards of the asset, or
- (b) The Company has neither transferred nor retained substantially all the risks and rewards of the asset but has transferred control of the asset.

Impairment of Financial assets

The Company recognizes loss allowances using the Expected Credit Loss (ECL) model for the financial assets which are not fair valued through profit or loss.

The Company follows "Simplified approach" for recognition of impairment loss allowance on trade receivables.

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognized is recognized as an impairment gain or loss in profit or loss.

As a practical expediency, the Company uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analyzed.

ECL impairment loss allowance (or reversal) recognized during the period is recognized as income/ expense in the statement of profit and loss (P&L). This amount is reflected under the head 'other expenses'.

Financial liabilities

Initial recognition and measurement

All financial liabilities are recognized initially at fair value and, in the case of

loans and borrowings and payables, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts.

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Loans and borrowings

This is the category most relevant to the Company. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the EIR amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of profit and loss.

This category generally applies to borrowings.

Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit or loss.

(f) Property, plant and equipment

Land and buildings held for use in the production or supply of goods or services, or for administrative purposes, are stated in the consolidated Balance Sheet at cost less accumulated depreciation and accumulated impairment losses. Free hold land is not depreciated.

Properties in the course of construction for production, supply or administrative purposes are carried at cost, less any recognised impairment loss. Cost includes professional fees and, for qualifying assets, borrowing costs capitalised in accordance with the Company's accounting policy. Such properties are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Fixtures and equipment are stated at cost less accumulated depreciation and accumulated impairment losses.

Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets. However, when there is no reasonable certainty that ownership will be obtained by the end of the lease term, assets are depreciated over the shorter of the lease term and their useful lives.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

Depreciation and amortisation

The Company depreciates property, plant and equipment over their estimated useful lives as specified in Schedule II to the Companies act, 2013 using the straight-line method.

Depreciation is recognized so as to write off the cost of assets (other than freehold land and under construction) less their residual values over their useful lives, using the straight-line method. Depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

The useful life as prescribed under Schedule II of the Companies Act have been followed except in respect of the following categories of assets, in whose case the life of the assets has been assessed as under based on technical advice, taking into account the nature of the asset, the estimated usage of the asset, the operating condition of the asset, past history of replacement, anticipated technological changes, manufacturers warranties and maintenance support, etc.,

The estimated useful lives are as follows:

Particulars	Years
Buildings	
-Factory and administrative buildings	20
-Ancillary structures	20
Plant and equipment	8
Furniture, fixtures and office equipment	5

Useful lives of depreciable assets

Management reviews the useful lives of depreciable assets at each reporting. As at March 31st, 2025 management assessed that the useful lives represent

the expected utility of the assets to the company. Further, there is no significant change in the useful lives as compared to previous year.

(g) Inventories

Inventories are stated at the lower of cost and net realisable value. Costs of inventories are determined on a weighted average cost basis. Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale.

(h) Impairment of tangible and intangible assets other than goodwill

At the end of each reporting period, the Company reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest Company of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss.

When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

(i) Employee benefits

Retirement benefit costs and termination benefits

Payments to defined contribution retirement benefit plans are recognised as an expense when employees have rendered service entitling them to the contributions.

For defined benefit retirement benefit plans, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. Remeasurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding interest), is reflected immediately in the statement of financial position with a charge or credit recognised in other comprehensive income in the period in which they occur. Remeasurement recognised in other comprehensive income is reflected immediately in retained earnings and will not be reclassified to profit or loss. Past service cost is recognised in profit or loss in the period of a plan amendment. Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset. Defined benefit costs are categorised as follows:

- service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements);
- net interest expense or income; and
- Remeasurement.

The Company presents the first two components of defined benefit costs in profit or loss in the line item 'Employee benefits expense'. Curtailment gains and losses are accounted for as past service costs.

The retirement benefit obligation recognised in the statement of financial position represents the actual deficit or surplus in the Company's defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plans or reductions in future contributions to the plans.

A liability for a termination benefit is recognised at the earlier of when the entity can no longer withdraw the offer of the termination benefit and when the entity recognises any related restructuring costs.

Short-term and other long-term employee benefits

A liability is recognised for benefits accruing to employees in respect of wages and salaries, annual leave and sick leave in the period the related service is rendered at the undiscounted amount of the benefits expected to be paid in exchange for that service.

Liabilities recognised in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service.

Liabilities recognised in respect of other long-term employee benefits are measured at the present value of the estimated future cash outflows expected to be made by the Company in respect of services provided by employees up to the reporting date.

Contributions from employees or third parties to defined benefit plans

Discretionary contributions made by employees or third parties reduce service cost upon payment of these contributions to the plan.

When the formal terms of the plans specify that there will be contributions from employees or third parties, the accounting depends on whether the contributions are linked to service, as follows:

- If the contributions are not linked to services (e.g. contributions are required to reduce a deficit arising from losses on plan assets or from actuarial losses), they are reflected in the measurement of the net defined benefit liability (asset).
- If contributions are linked to services, they reduce service costs. For the amount of contribution that is dependent on the number of years of service, the entity reduces service cost by attributing the contributions to periods of service using the attribution method required by Ind AS 19 for the gross benefits. For the amount of contribution that is independent of the number of years of service, the entity [reduces service cost in the period in which the related service is rendered / reduces service cost by attributing contributions to the employees' periods of service in accordance with Ind AS 19.

(j) Leasing

Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single on-Balance Sheet model.

The standard includes two recognition exemptions for lessees – leases of 'low-value' assets (e.g., personal computers) and short-term leases (i.e., leases with a lease term of 12 months or less). At the commencement date of a lease, a lessee will recognize a liability to make lease payments (i.e., the lease liability) and an asset representing the right to use the underlying asset during the lease term (i.e., the right-of-use asset). Lessees will be required to separately recognize the interest expense on the lease liability and the depreciation expense on the right-of-use asset.

Lease is 'a contract or part of a contract that conveys the right to use an asset (the underlying asset) for a period of time in exchange for consideration'. An underlying asset has been defined to mean an

Asset that is the subject of lease, for which the right to use that asset has been provided by a lessor or lessee.

**Measurement of lease liability**

On the date of transition lease liability is measured at present value of lease payments that are not paid as at the date of transition.

After the transition date lease liability is measured at amortized cost using the effective interest method.

Subsequently the company measures the lease liability by increasing the carrying the amount to reflect the interest on the lease liability; reducing the carrying amount of reflect the lease payments made; and re-measuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments.

The Company uses the incremental borrowing rate which is the rate of interest that a lessee would have to pay over a similar term, and with a similar security, the funds necessary to obtain an asset of similar value of the right-to-use asset in a similar economic environment.

Right-of-use asset (ROU)

This is measured as lease liability adding any initial direct costs, prepaid lease payments, cost to dismantle or restore less lease incentives.

After the commencement date, the Company measures the ROU at cost:

- Less any accumulated depreciation and any accumulate impairment losses; and
- Adjusted for any re-measurement of the lease liability on subsequent to lease commencement date

A Company applies the depreciation requirement in Ind AS 16 while depreciating ROU asset. The said asset is depreciated over a period of lease term unless in case where ownership of underlying asset is transferred. In such case, the asset is depreciated over the useful life of underlying asset. Also, impairment requirements as per Ind AS 36 is applied by the Company

(k) Tax Expense

Income tax expense represents the sum of the tax currently payable and deferred tax.

Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the consolidated (statement of profit or loss and other comprehensive income/ statement of profit or loss) because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current

tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. In addition, deferred tax liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries and associates, and interests in joint ventures, except where the Company is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Current and deferred tax for the year

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Where current

tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

(l) Provisions and contingencies

A Provision is recognised when the company has a present obligation (legal or constructive) as a result of past event i.e., it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent liability is disclosed for:

- Possible obligations which will be confirmed only by future events not wholly within the control of the company or
- Present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.
- Contingent liabilities and assets are not recognised in financial statements. A disclosure of the contingent liability is made when there is a possible or a present obligation that may, but probably will not, require an outflow of resources.

(m) Government grants

Government grants are not recognised until there is reasonable assurance that the Company will comply with the conditions attached to them and that the grants will be received.

Government grants are recognised in profit or loss on a systematic basis over the periods in which the Company recognises as expenses the related costs for which the grants are intended to compensate. Specifically, government grants whose primary condition is that the Company should purchase, construct or otherwise acquire non-current assets are recognised as deferred revenue in the consolidated statement of financial position and transferred to profit or loss on a systematic and rational basis over the useful lives of the related assets.

Government grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Company with no future related costs are recognised in profit or loss in the period in which they become receivable.

The benefit of a government loan at a below-market rate of interest is treated as a government grant, measured as the difference between proceeds received and the fair value of the loan based on prevailing market interest rates.

**(n) Earning per equity share**

Basic earnings per equity share is calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period.

For the purpose of calculating diluted earnings per equity share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares. In computing the dilutive earnings per share, only potential equity shares that are dilutive and that either reduces the earnings per share or increases loss per share are included.

(o) Statement of Cash flow

Cash flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payment and items of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

(p) Investment property

Investment properties are properties held to earn rentals and/or for capital appreciation (including property under construction for such purposes). Investment properties are recognised initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are measured at cost less accumulated depreciation and accumulated impairment losses if any.

Depreciation on buildings is calculated using straight line method to allocate their cost, net of residual values, over their estimated useful lives, depreciation is provided on useful life of assets as prescribed in schedule III to the Companies Act, 2013.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the period in which the property is derecognised.

(q) Segment Reporting

The management has assessed the identification of reportable segments in accordance with the requirements of Ind AS 108 'Operating Segments' and the company has disclosed three reportable segments namely (i) Chemical Manufacturing, (ii) Power Generation and (iii) Trading in coal. Further, the Board of directors have designated the Managing Director as Chief Operating Decision Marker ('CODM').

**(r) Estimates and assumptions**

The preparation of the Company's financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities.

Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

The Company applies judgment to determine whether each product or services promised to a customer are capable of being distinct, and are distinct in the context of the contract, if not, the promised product or services are combined and accounted as a single performance obligation. The Company allocates the arrangement consideration to separately identifiable performance obligation deliverables based on their relative stand-alone selling price. Because the financial reporting of these contracts depends on estimates that are assessed continually during the term of these contracts, recognized revenue and profit are subject to revisions as the contract progresses to completion.

Allowance for expected credit losses:

It describes the use of practical expedient by computing the expected credit loss allowance for trade receivables based on provision matrix. The expected credit allowance is based on the aging of the days receivables which are past due and the rates derived based on past history of defaults in the provision matrix.

Fair value of investments:

The Company has invested in the equity instruments of various companies. However, the percentage of shareholding of the Company in such investee companies is very low and hence, it has not been provided with future projections including projected profit and loss account by those investee companies. Hence, the valuation exercise carried out by the Company with the help of available historical annual reports and other information in the public domain.

Taxes

Deferred tax assets are recognized for unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilized. Significant management judgment is required to determine the amount of deferred tax assets that can be recognized, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

Contingent liability judgement:

Contingent liabilities are claims against the Company not acknowledged as debt. Contingencies may arise from the ordinary course of business in relation

to claims against the Company, including legal, contractor and other claims. By their nature, contingencies will be resolved only when one or more uncertain future events occur or fail to occur. The assessment of the existence, and potential quantum of contingencies inherently involve the exercise of significant judgment and the use of estimates regarding the outcome of future events.

Fair value of Investment properties Rs.1892.66 lakhs

Estimation of fair value

- 1) The Company obtains independent valuations for its investment properties annually. The best evidence of fair value is current prices in an active market for similar properties. Where such information is not available, the Company considers information from a variety of sources including:

- Rates as per Sub Registrar Office
- current prices in an active market for properties of different nature.
- recent prices of similar properties in less active markets, adjusted to reflect those differences

The main input used is the price per square metre as per the State Government's Registration and Stamps Department rate for the property. All resulting fair value estimates for investment properties are included in level 2.

- 2) Income and operating expenses of Investment Property:

- Rental income - Rs.143.52 lakhs

The Average credit period on sales is 60 days

No interest is charged on Trade Receivables for delay in payment beyond credit period from the due date of the Invoice.

The Company has used a practical expediency by computing the expected credit loss allowance for Trade Receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and adjusted for forward looking information. The expected credit loss allowance is based on the ageing of the days the receivables are due and the rates are given in the provision matrix. The provision matrix at the end of the Reporting Period is as follows :

* Refer Note 46 for related party transactions.

** Based on the above data, As there is a sufficient provision, it is carried forward from previous year. No additional provision is made during the current year. The provision for expected credit loss being higher is continued on a prudent basis for unexpected credit losses.

Investment property	-	1,892.66	-	1,892.66
Total Financial assets	24,657.57	2,505.74	-	27,163.31

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments, traded bonds and mutual funds that have quoted price. The fair value of all equity instruments (including bonds) which are traded in the stock exchanges is valued using the closing price as at the reporting period.

Level 2: The fair value of financial instruments that are not traded in an active market (for example, traded bonds, over-the-counter derivatives) is determined using valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities included in level 3.

There are no transfers between levels 1 and 2 during the year.

**Note 41: Capital Management & Risk Management****Capital management**

The Company being in a capital intensive industry, its objective is to maintain a strong credit rating healthy capital ratios and establish a capital structure that would maximise the return to stakeholders through optimum mix of debt and equity. The Company's capital requirement is mainly to fund its capacity expansion, repayment of principal and interest on its borrowings. The principal source of funding of the Company has been, and is expected to continue to be, cash generated from its operations supplemented by funding from bank borrowings. The Company is not subject to any externally imposed capital requirements. The Company regularly considers other financing and refinancing opportunities to diversify its debt profile, reduce interest cost and align maturity profile of its debt commensurate with life of the assets, and closely monitors its judicious allocation amongst competing capital expansion projects to capture market opportunities at minimum risk.

Gearing ratio

The Company monitors its capital using gearing ratio as given below:

Financial risk management and objectives and policies

This note explains the sources of risk which the entity is exposed to and how the entity manages the risk and the impact in the financial statements.

A Special Team with Senior Executives having exposure in various fields has been formed to assist Chief Financial Officer (CFO) in (a) Overseeing and approving the Company's enterprise wide risk management framework, and (b) Overseeing that all the risks that the organisation faces such as market risk (including currency risk, interest rate risk and other price risk), Credit risk and liquidity risk have been identified and assessed and there is an adequate risk management infrastructure in place capable of addressing those risks. The CFO, monitors and reports on the principal risks and uncertainties that can impact the company and its ability to achieve strategic objectives. The Company's management systems, organisational structures, processes, standards, code of conduct and behaviors together form the Management and business of the Company.

**Consolidated****Notes to financial statements for the year ended 31st March, 2025 (Contd...)***(All amounts in ₹ Lakhs, except otherwise stated)***A. Market risk**

The Company is exposed to market risk through changes in foreign currency exchange rates and changes in interest rates. Financial assets/liabilities affected by this risk are borrowings, letter of credits and trade receivables.

The Company's investments in equity securities are susceptible to price risk arising from uncertainties about future value of the investment securities. The Company's non-current investment in equity shares are strategic investments and hence are considered as Fair Value through Other Comprehensive Income. The company's Board of Directors reviews and approves all equity investment decisions.

Foreign Currency risk management

The Company operates internationally and is exposed to foreign currency risk arising from foreign currency transactions, primarily with respect to the US\$. Foreign exchange risk arises from import as well as exports of goods. The risk is measured through a forecast of highly probable foreign currency cash flows.

The special team as mentioned above analysis the options for hedging. Based on the analysis the management takes decision regarding hedging of foreign currency exposures. Currently, the Company has not hedged any of the foreign currency transactions in the view of the natural hedging. The natural hedging is sufficient to manage the current foreign currency risk management.

The carrying amounts of the Company's foreign currency denominated monetary assets and monetary liabilities are restated at the end of each reporting period. The same at the end of the reporting period are as follows :

Particulars	As at 31st March, 2025		As at 31st March, 2024

Receivables for export	USD	25.98	USD	29.58
Receivables for export	EURO	1.31	EURO	2.79
Payables for imports	USD	-	USD	1.97

Foreign Currency Sensitivity Analysis

The Company is mainly exposed to US Dollar.

The following tables demonstrate the sensitivity to a reasonably possible change in USD exchange rates, with all other variables held constant. The Company's exposure to foreign currency changes for all other currencies is not material.

**Consolidated****Notes to financial statements for the year ended 31st March, 2025 (Contd...)***(All amounts in ₹ Lakhs, except otherwise stated)*

Interest Rate Risk Management

Interest rate risk is the risk that the fair value or future cash flows of a financial instruments will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's borrowings with floating base interest rates. Based on the interest rate sensitivity the Company decides on the management of interest rate risk. The Company manages by having a balanced portfolio of variable and fixed interest rate borrowings.

B. Credit risk

Credit risk refers to the risk that the counterparty will default on its contractual obligations resulting in financial loss to the Company. The Company is operating through network of dealers based at different locations. Regular monitoring of the receivables is undertaken by the Marketing Department and in case the limits are exceeded, steps will be taken by the Marketing departments and after discussing with the management the Company will decide whether to stop or not further supplies to the concerned dealer till the amount outstanding is recovered. For the export made by the Company, the sales are backed by letters of credit or advance receipts. The internal risk management committee of the Company meets regularly to discuss the dealers and credit risks, measures taken to address them and the status and level of risk after the measures taken. Export sales are fully secured through letters of credit or against advance receipts. (refer Note No.9 for Trade Receivables outstanding).

C. Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due and to close out market positions. Due to the dynamic nature of the underlying businesses, Company maintains flexibility in funding by maintaining availability under committed credit lines.

Ultimate responsibility for liquidity risk management rests with the board of directors, which has established an appropriate liquidity risk management framework for the management of the Company's short-term, medium-term and long-term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

Nature of Benefits:

The Company operates a defined benefit final salary gratuity plan which is open to new entrants. The gratuity benefits payable to the employees are based on the employee's service and last drawn salary at the time of leaving. The employees do not contribute towards this plan and the full cost of providing these benefits are met by the Company.

i. Regulatory Framework:

There are no minimum funding requirements for a gratuity plan in India. The trustees of the gratuity fund have a fiduciary responsibility to act according to the provisions of the trust deed and rules. Since the fund is income tax approved, the Company and the trustees have to ensure that they are at all

times fully compliant with the relevant provisions of the income tax and rules. Besides this if the Company is covered by the Payment of Gratuity Act, 1972 then the Company is bound to pay the statutory minimum gratuity as prescribed under this Act.

ii. Governance of the Plan:

The Company has setup an income tax approved irrevocable trust fund to finance the plan liability. The trustees of the trust fund are responsible for the overall governance of the plan.

iii. Risk exposures:

Valuations are performed on certain basic set of pre-determined assumptions and other regulatory framework which may vary over time. Thus, the Company is exposed to various risks in providing the above benefit which are as follows:

- (a) Interest Rate risk: The plan exposes the Company to the rise of fall in interest rates. A fall in interest rates will result in an increase in the ultimate cost of providing the above benefit and will thus result in an increase in the value of the liability (as shown in financial statements).
- (b) Liquidity Risk: This is the risk that the Company is not able to meet the short-term Benefit payouts. This may arise due to non availability of enough cash / cash equivalent to meet the liabilities or holding of illiquid assets not being sold in time.
- (c) Salary escalation Risk: The present value of the defined benefit plan is calculated with the assumption of salary increase rate of plan participants in future. Deviation in the rate of increase of salary in future for plan participants from the rate of increase in salary used to determine the present value of obligation will have a bearing on the plan's liability.
- (d) Demographic Risk: The Company has used certain mortality and attrition assumptions in valuation of the liability. The Company is exposed to the risk of actual experience turning out to be worse compared to the assumption.
- (e) Regulatory Risk: Benefit is paid in accordance with the Provisions of Gratuity Act 1972 (as may be amended from time to time). There is a risk of change in provisions of Gratuity Act requiring higher Plan Benefit pay outs (e.g. change in benefit formula).
- (f) Asset Liability Mismatching or Market Risk: The duration of the liability is longer compared to duration of assets, exposing the Company to market risk for volatilities/fall in interest rate.
- (g) Investment Risk: The probability or likelihood of occurrence of losses relative to the expected return on any particular investment.

- Average past service : 14.01 years
- Withdrawal rate :3% per annum withdrawal rate at all ages in this valuation.

**Consolidated****Notes to financial statements for the year ended 31st March, 2025 (Contd...)***(All amounts in ₹ Lakhs, except otherwise stated)***(b) Financial assumptions**

Particulars	For the Year ended 31st March, 2025	For the Year ended 31st March, 2024
Discount rate(p.a)	6.70%	7.20%
Expected rate of return (p.a)	7.67%	7.67%
Salary escalation rate (p.a)	7.00%	7.00%

vii. Sensitivity Analysis:

Gratuity is a lump sum plan and the cost of providing these benefits is typically less sensitive to small changes in demographic assumptions. The key actuarial assumptions to which the benefit obligation results are particularly sensitive to are discount rate and future salary escalation rate. The following table summarizes the change in defined benefit obligation and impact in percentage terms compared with the reported defined benefit obligation at the end of the reporting period arising on account of an increase or decrease in the reported assumption by 50 basis points.

	Period Ended 31 Mar 25	
	Discount Rate	Salary Escalation Rate
Defined benefit obligation on increase in 50 bps	53,975,563	57,807,840
Impact of increase in 50 bps on DBO	-3.42%	3.62%
Defined benefit obligation on decrease in 50 bps	57,823,135	53,972,184
Impact of decrease in 50 bps on DBO	3.65%	-3.42%

These sensitivities have been calculated to show the movement in defined benefit obligation in isolation and assuming there are no other changes in market conditions at the accounting date. There have been no changes from the previous periods in the methods and assumptions used in preparing the sensitivity analyses.

Special Events:

There are no special events such as benefit improvements or curtailments or settlements during the inter-valuation period.

viii. Asset Liability Matching Reserves: The Company has Life Insurance Corporation (Group Gratuity Manager) for administering the Plan liability. The funds of the Plan liability are invested by the Life Insurance Corporation, (LIC), pay the benefits to members of the enterprise as per Rules of the LIC. So the LIC is exposed to the liquidity risk of not being able to arrange for the benefit outgo due to cash liquidity problems and so the LIC faces a liquidity risk.

**ix. Funding Arrangements & Policy:**

The money contributed by the Company to the fund to finance the liabilities of the plan has to be invested.

The trustees of the plan have outsourced the investment management of the fund to an insurance company. The insurance company in turn manages these funds as per the mandate provided to them by the trustees and the asset allocation which is within the permissible limits prescribed in the insurance regulations. Due to the restrictions in the type of investments that can be held by the fund, it is not possible to explicitly follow an asset-liability matching strategy to manage risk actively.

There is no compulsion on the part of the Company to fully pre fund the liability of the Plan. The Company's philosophy is to fund the benefits based on its own liquidity and tax position as well as level of under funding of the plan.

The expected contribution payable to the plan next year is INR 2,000,000.

x. Projected plan cash flow and maturity profile:

The table below shows the expected cash flow profile of the benefits to be paid to the current membership of the plan based on past service of the employees as at the valuation date:

Maturity Profile	(In ₹)
Expected benefits for year 1	11,274,881
Expected benefits for year 2	3,938,574
Expected benefits for year 3	6,442,046
